

## Baktolan® lotion

Moisturising, fast-absorbing oil-in-water (o/w) lotion  
for normal skin.

# Baktolan® lotion

## Advantages at a glance

- nurturing formula with plant-based oils and vitamin E
- increases significantly the skin's moisture content
- is quickly absorbed leaving no residues
- provides a smooth and soft skin feeling
- ideal for the quick skin care in between
- subtle scent
- free of parabens

## Application

Baktolan lotion is a light oil-in-water lotion matched to the skin's pH-value. Particular value was placed on very good skin tolerance and quick absorption when using the lotion. The nurturing formula with plant-based oils and vitamin E provides a perceptibly smooth and soft feeling of the skin.

## Areas of application

Baktolan lotion is used for hand- and skincare. The skin mild oil-in-water lotion is especially suited for the daily care of staff in the following areas of application:

- in all hospital areas and medical practices
- in utility area and cleaning service
- in the industry and laboratories
- in areas where quick absorption without leaving an unpleasant greasy film on the skin has great importance (e. g. paperwork, laboratory activity etc.)
- in home dialysis

## Directions for use

Baktolan lotion can be easily applied several times a day on to hands and skin. The lotion is particularly economical in use due to the specific selected and rich plant-based oils. Baktolan lotion spreads easily and is absorbed quickly without leaving an unpleasant greasy film on the skin.

## Composition

Aqua, Dicaprylyl Ether, Glycerol Stearate, Ceteareth-20, Glycerin, Coco-Caprylate/Caprate, Pentylen Glycol, Tocopheryl Acetate, Octyldecanol, Ceteareth-12, Cetyl Alcohol, Cetearyl Alcohol, Hexyldecanol, Hexyldecyll Laurate, Cetyl Palmitate, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, 2-Bromo-2-Nitropropane-1,3-Diol, Parfum (Fragrance), Sodium Citrate.

## Compatibility with hand disinfection products

Studies about hygienic hand disinfection acc. to EN 1500 show that the efficacy of BODE hand disinfection products Sterillium, Sterillium classic pure, Sterillium med, Sterillium Virugard, Sterillium Gel and Sterillium Gel pure is not influenced by the previous use of Baktolan lotion.

## Compatibility with examination gloves

Studies following the EN 455-1 show that previous use of Baktolan lotion does not increase the perforation rate of gloves made out of nitrile, latex and vinyl.

Studies following the EN 455-2 show that previous use of Baktolan lotion does not impair the tear strength of gloves.
