

## CE DW-HW50HC

## Precise Temperature Control and Safe Storage

Microprocessor-based temperature controller, -40°C~-86°C can be set freely with display accuracy at 0.1°C.

## Visual & Audio Alarm system

High/low temperature alarm, power failure alarm, low battery alarm, high ambient temperature alarm, communication failure alarm etc.

## Pofricoration System

Secop (Danfoss) compressor, 1 unit to reduce noise and improve the cooling temperature

tromotor with internationally famous of Germany EBM, energy saving, high efficiency, and quiet.

ed with DC/DC power management module, optimized energy saving; ecision voltage control, stabilizing the voltage and freezer performance; Reduce the redundancy heat, completely eradicate overheating risk.

### Alarm system

- ·The perfect audible & visual alarm system: High/low temperature , sensor failure, power failure , low battery ,high ambient temperature , communication failure etc;
- •Startup delay and stop interval protection function to ensure reliable operation;
- Keyboard lock and password protection function to prevent arbitrary adjustment of operating parameters;
- ·Safety door lock design, ensure safety sample storage.

## **Human-oriented**

- •The inner liner is made of stainless steel, resistant to corrosion and easy to clean;
- 4 Universal casters for easy handing;
   Front opening lockable door with full height handle, with vacuum release port for easy open during cooling operation;
- Two-times foaming technology. 110mm foaming insulation with VIP board for better temperature performance.

## Scope of Application

Suitable for use in blood banks, hospitals, health and disease prevention systems, research institutions, colleges & universities, the electronic industry, biological engineering, laboratories in colleges & universities, military enterprises, deep-sea fishing companies, e
