THOR

Disposable gloves, THOR Power Grip, S, orange, nitrile, powder-free

✓ Great protection, high level of comfort, power grip

CAT
III

Product Description

THOR Power Grip provides great protection combined with good comfort. The nitrile glove is particularly suitable for chemical splashes due to the glove's thickness which does not compromise penetration. The glove is particularly suitable for: pharma, the food industry, the automotive industry and cleaning with a rolled edge.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for *Conformité Européenne* (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The glass-fork-symbol guarantees that products live up to the demands stated in the European legislation for food contact materials. The symbol is not mandatory but advised on products used for food contact.

Third-party type approval is required for all Category III personal protective equipment (PPE) products. CAT III products will be accompanied by a notified body number for the 3rd party verification of the product’s safety.

The product does not contain latex.

The glove has a finger textured surface.

The glove has a medium grip.

The glove is 240 mm long.

The standard specifies the requirements for protective gloves against hazardous chemicals and microorganisms. This part of the standard describes the glove’s resistance to bacteria, fungi and viruses.

The standard specifies the requirements for protective gloves against chemicals and microorganisms. Type B has been tested for a permeation time of at least 30 minutes with the chemicals sodium hydroxide 40%, hydrogen peroxide 30% and formaldehyde 37%.

The standard specifies the requirements for protective gloves in relation to general requirements and test methods.
