## Ingredient data sheet

According to 648/2004/EC , 907/2006/EC

Product identifier: Quatrodes  
Forte

| 10 % or more |                                    |      |                        |
|--------------|------------------------------------|------|------------------------|
| CAS          | Common chemical name or IUPAC name | INCI | European Pharmacopoeia |
| 7732-18-5    | Water                              | AQUA |                        |

| 1 % or over, but less than 10 % |                                                                                                                   |                                |                        |
|---------------------------------|-------------------------------------------------------------------------------------------------------------------|--------------------------------|------------------------|
| CAS                             | Common chemical name or IUPAC name                                                                                | INCI                           | European Pharmacopoeia |
| 2372-82-9                       | N-(3-aminopropyl)-N-dodecylpropane-1,3-diamine                                                                    | LAURYLAMINE DIPROPYLENEDIAMINE |                        |
| 94667-33-1                      | Poly(oxy-1,2-ethanediyl), .alpha.-[2-(didecylmethylammonio)ethyl]-.omega.-hydroxy-, propanoate (salt) (Bardap 26) |                                |                        |
| 107-21-1                        | Ethanediol                                                                                                        | GLYCOL                         |                        |
| 68439-46-3                      | Alcohol ethoxylated (C9-C11) (6 EO)                                                                               | C9-11 PARETH-6                 |                        |

| 0,1 % or over, but less than 1 % |                                    |                  |                        |
|----------------------------------|------------------------------------|------------------|------------------------|
| CAS                              | Common chemical name or IUPAC name | INCI             | European Pharmacopoeia |
| 141-43-5                         | 2-aminoethanol                     | ETHANOLAMINE     |                        |
| 57-55-6                          | Propane-1,2-diol                   | PROPYLENE GLYCOL |                        |
|                                  | perfumes                           |                  |                        |

| less than 0,1 % |                                    |          |                        |
|-----------------|------------------------------------|----------|------------------------|
| CAS             | Common chemical name or IUPAC name | INCI     | European Pharmacopoeia |
| 5989-27-5       | d-limonene                         | LIMONENE |                        |
