

Sterillium® Gel pure

The high performance hand disinfection gel for routine disinfection.

Image may vary according to local requirements

Application

For hygienic and surgical rub-in hand disinfection – independent of washbasin and water. For all areas that are relevant to hygiene, e.g. in health care and industry, in homecare of patients, elderly and babies, home dialysis. Protects against infections in public facilities and traveling.

Directions for use

Hygienic hand disinfection: Apply sufficient amount (min. 3 ml) of undiluted hand disinfectant to the cupped hand so that all areas of the hands can be wetted thoroughly and completely. Carefully rub in hand disinfectant for 30 seconds – cover all areas of skin.

Surgical hand disinfection: Thoroughly rub Sterillium® Gel pure into hands and forearms up to the elbows. When treating hands, pay particular attention to fingertips, palms and thumbs. Hands and forearms are to be kept wet during the entire application time of 1.5 minutes.

Characteristics

- comprehensive antimicrobial activity against bacteria, fungi and viruses (incl. Noro- and Coronaviruses)
- smooth feeling on the skin, no stickiness
- suitable for sensitive skin due to absence of fragrances and colorants
- ready to go: Quick evaporation after exposure time allows optimized work flow
- reduced risk of dripping due to high viscose gel
- increases skin hydration with regular use
- excellent skin tolerability even with long-term use
- suitable also for the food industry (HACCP certified)

Proven efficacy	Testing method	Exposure time
Bacteria / Fungi		
Hygienic hand disinfection	EN 1500	30 sec
Surgical hand disinfection	EN 12791	1.5 min
Bactericidal	EN 13727	15 sec
Tuberculocidal	EN 14348	15 sec
Mycobactericidal	EN 14348	15 sec
Fungicidal	EN 13624	30 sec
Viruses		
Virucidal activity against enveloped viruses	EN 14476	15 sec
Limited spectrum virucidal activity	EN 14476	60 sec
Virucidal	EN 14476	60 sec
Norovirus	EN 14476	15 sec

Composition

Active substances: Ethanol 85.0 g.

Microbiology

Bactericidal, fungicidal, tuberculocidal, mycobactericidal, virucidal against enveloped viruses, limited spectrum of virucidal activity incl. Norovirus, virucidal.

Sterillium® Gel pure

Chemical-physical data

Appearance viscous, clear, transparent
Density (at 20°C) approx. 0.82 g/cm³
Flashpoint 17,1°C
(acc. to EN ISO 3679)

Stability

In opened, and tightly closed container,
with mounted single-use pump or when
using the Eurodispenser 1 plus / 1 plus
touchless: 12 months.

Please note: that the availability of products in the Sterillium® range may vary in different countries and regions. Contact your local distribution partner for more information. The recommendations regarding our preparations are based on scientific tests and are given in good faith. More detailed recommendations, e.g. regarding material compatibility, are possible only in separate, individual cases. Our recommendations are not binding and do not constitute a guarantee. They do not preclude a company's own testing for the intended purpose and process. In this respect we cannot accept any liability. This is in accordance with our general conditions of sale and supply.

Use disinfectants safely. Always read the label and product information before use.

Please amend in accordance with local requirements (e.g. law of advertising, product status, CLP labelling)

Helps. Cares. Protects.
