Vscan

Ready for a new view?

Get crystal-clear images with the power of a high-performance ultrasound machine in a small, lightweight and wireless solution.

Insight right in your pocket

Supports early diagnosis and helps you quickly decide on next steps.

Developed for clinicians

It is easy to use, intuitive to navigate and optimized for your mobile device**

Dual-probe imaging power

Complete both shallow and deep scans without switching probes or compromising on image quality.

Durability, defined

Withstands everyday handling from scratches to drops and even a rainstorm.*

* Probe withstands drops: tested to Military drop standards (MIL-810G). 1P67 waterproof, compatible with high level disinfection techniques.

** Works with a range of Android and iOS smartphone and tablets.

Are you ready to explore Vscan Air?

handheldultrasound.gehealthcare.com

Experience handheld ultrasound without compromising on portability or image quality

Break free.

Take Vscan Air anywhere* with wireless freedom and maximum portability. Its small, lightweight and wireless dual-probe provides you with a convenient, durable and flexible handheld ultrasound solution.

Clear images. Informed decisions.

Engineered with SignalMax™ technology, Vscan Air delivers sharp images to support early disease detection and help monitor treatment.

By your side.

We support your ultrasound journey from first scan to confident use. Make the most of your system from the easy-to-use probe and intuitive app to GE Healthcare's renowned service and educational tools. Vscan Air comes with a 3-year worry-free warranty.

* The device has been verified for limited use outside of professional healthcare facilities. Use is restricted to environmental properties described in the user manual. Please contact your GE Healthcare sales representative for detailed information.

Securely store, share and collaborate

Flexible wireless dataflow:

- DICOM®, including query from Modality Worklist server, Store to DICOM PACS, receive Storage Commitment
- JPG/MPG export to shared network folders (supports importing into EMR)
- Share auto-anonymized images with other apps
- No cloud required

DICOM server

Shared folder

Other apps

Security:

- Secure DICOM including the option of Peer Authentication
- Secure User Authentication
- Passwords required to access patient data

Get more from your Vscan Air experience.

Powerful Imaging. Powerful Connections. Two subscription options.

Vscan Air + Digital Tools takes your handheld ultrasound experience one step further by connecting you to a suite of user-centric digital tools through our optional Vscan Air subscriptions. Improve your workflow with secure collaboration, image, and device management solutions.

Fleet Solutions gives you access to:

MyDeviceHub

Remotely manage and control your entire fleet of Vscan Air devices.

MyRemoteShare¹

Easily and securely connect with colleagues and educators in real-time with audio, video, and screen share capabilities.

With Individual Solutions, you get access to:

MyImageCloud²

Provides cloud storage for managing, sharing and remotely accessing image data and exams from anywhere.

MyRemoteShare

Easily and securely connect with colleagues and educators in real-time with audio, video, and screen share capabilities.

¹ MyRemoteShare is not intended for diagnostic use.

² Works with Centricity™ Universal Zero Footprint and Centricity Enterprise Archive

MyDeviceHub

Remotely manage and control an entire fleet of Vscan Air devices, including setting access policies and configuring, from one centralized, Web-based portal. This reduces the burden on individual users to configure correctly, helping increase compliance and security.

- Register and manage all Vscan Air devices centrally
- Set up DICOM® destinations per fleet
- View usage logs
- Seamlessly group devices into fleets and assign probes to specific departments
- Restrict usage of a fleet to named users

MyRemoteShare

Easily and securely connect with colleagues and educators in real-time with audio, video, and screen share capabilities. Simply start a remote share session from the Vscan Air app for training and support.

- Easily and securely share Vscan Air app screen with peers
- Broadcast Vscan Air app screen
- Train new users
- Run ultrasound labs — from anywhere

MyImageCloud

Easily upload exams to the cloud from the Vscan Air app with this secure cloud-based PACS data and image storage and review solution that supports DICOMweb™ export.

- Eliminate the need to hold data on mobile device to minimize data privacy risks
- Share studies for training, education, and consultations
- Share images digitally to get faster second opinions and referrals
- Access images and data from anywhere

SignalMax™ Technology

Power of a high-performance system
in a pocket-sized solution

See into the whole body with
dual-probe (2 in 1) technology

Console-quality signal processing
in a miniaturized chipset

Stunning image quality in a
wireless handheld device

Builds upon GE's expertise in
ultrasound innovation
